

EI Type Bent Pin Type Transformer

EI type iron power supply transformer, low loss at no load, high power output, high efficiency, low temperature rise, widely used in air-conditioner, acoustics, microwave, oven, amplifier, SPC exchange, UPS power supply, and the power supply meter, equipment of all kinds machine electronics, medical treatment, chemical industry, post and telecommunications, spinning, popular science.

Technical Specifications

Unit: mm

Specifications	Power	A	B	C	D	E	Mounting Hole F×G
22X28	25	66	51	60	57	46	4X7
22X33	30	66	53	60	57	50	4X7
22X35	35	66	57	60	57	53	4X7
22X38	40	66	68	60	57	56	4X7
22X45	55	66	75	60	57	63	4X7

This series of products offers a variety of parameter specifications tailored to customer requirements, so as to meet different application and installation needs.
